

## An Illustration of the Hebrew Verb Stems and their Root Groups

*This illustration is an attempt to present visually the Hebrew verbal system. The following are presentations of the 7 verb stems: התפעל, הפעל, הפעיל, פעל, נפעל, פעל, קל/פעל. Each stem is represented below by a different graphic symbol.*

*Each verb stem has its basic, 'strong' verb paradigm for all forms: prefix form, suffix form, participle, imperative & infinitives (Tools No. 11a, 14-17).*

*The front darker color page of each paradigm illustrated below, represents the 'strong' verbs. The pages that follow in lighter hues of grey represent the paradigm of each verb stem for the different 'weak' root groups: first letter ג, first letter י, third letter ה, etc. which may deviate from the 'strong' paradigm.*
